

## **Konrad Hellfeuer – CV**

### **Bio**

I'm a freelance artist from Germany, working in photography and drawing. My work explores themes like decay, memory, abstraction, and the poetic qualities of overlooked spaces and textures. I've exhibited my work across Europe and been featured in numerous international publications.

### **Artist Statement**

I move freely between mediums—ink, charcoal, photography—guided by emotion rather than method. My work is less about form than connection. Each piece is an invitation to see, to feel, to pause.

## Exhibitions
